Continuation of 11. does NOT place the application in condition for allowance because: The instant claim does not recite any particular material for forming the transfer tape, or preclude the formation of tape layer 40 from glass, quartz, alumina or other transparent material as taught by Silverbrook. Silverbrook, fig. 8 and text on col. 3, lines12-15 discloses a transfer tap 40 is mounted and secured upon the dicing tape 38.
